Abstract - 200 words maximum

Keywords: System1, system2.

I. INTRODUCTION

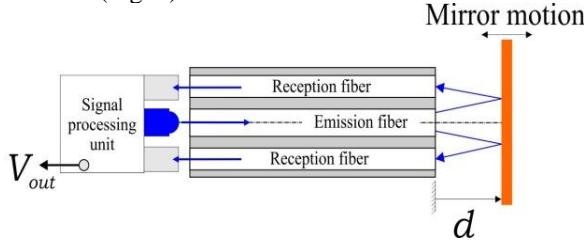

High precision ... [1]. CMOS technology [2].

II. TITLE OF THE SECOND SECTION

A. Principle of the algorithm

- 1) Pre-processing: Determination of the linear parts of reference signals

Each fiber (Fig. 1)...

Each result (Table I)

TABLE I.

Table Head	Table Column Head		
	Table column subhead	Subhead	Subhead
copy	More table copy ^a		

The system resolution can be obtained using the following formulas...

$$a = b + 2 \quad (1)$$

$$f(x) = x + x \quad (2)$$

III. CONCLUSION AND PERSPECTIVES

This sample paper presents the formatting instructions for the first international workshop Labex MS2T. Please address any problems related to use of this template to the Abstract Committee (Sabine BENSAOUN, Frédéric LAMARQUE and Mohamed SALLAK).

ACKNOWLEDGMENT

The preferred spelling of the word “acknowledgment” in America is without an “e” after the “g”. Avoid the stilted expression “one of us (R. B. G.) thanks ...”. Instead, try “R. B. G. thanks...”. Put sponsor acknowledgments in the unnumbered footnote on the first page.
